Walkway Over the Hudson
Medallion Inscription Form

This form will help you determine what to indicate in an inscription of a medallion. Please return this form to the address indicated at the bottom.

Date: _____ Your Name: _____

Who is this a tribute for? _____

Medallions are round pieces made of bronze and engraved with black color-filled lettering. They are 4" wide and are affixed to the railing of the bridge. The center of the medallion features a maple leaf and an image of the Walkway. Medallions can be inscribed with a variety of rows on the top and bottom arcs. Each line has a character limit of 25. Use the grid below to enter your inscription.

Please note:

- Inscriptions will be automatically centered on each line.
- Layout of arcs is adjusted to fit appropriately. Increasing the number of letters on a line will decrease the text size.
- All letters are engraved as capital letters.
- Spaces and punctuation are considered characters (quotation marks, periods, etc)
- Add commas to lists of names for legibility (Ex: "DAN, SALLY & KATRINA")
- Medallions are engraved locally and finished by hand resulting in individual character and variation. Slight variations in the size, shape and depth of letters should be expected as part of the engraving process and due to the composition of the bronze.
- The pieces are protected with a clear lacquer finish which is renewed periodically at no charge to our donors.
- All messages submitted for engraving are subject to approval by Walkway staff
- You will be able to review and approve a proof of the piece before engraving
- If you are purchasing more than one medallion, please complete a form for each

INSCRIPTION

TOP ARC (Choice of 1 or 2 rows)

BOTTOM ARC (Choice of 1 or 2 rows)
